Dear Mr. Martinez:

The New Mexico Delegation proudly supports the Los Lunas I-25 Interchange and East-West Corridor project for the Village of Los Lunas, New Mexico. The Village has recently met with their Congressional representatives and has also met with the U.S. Department of Transportation. We ask that this project be prioritized for design funding as we look forward to possible construction funding sources.

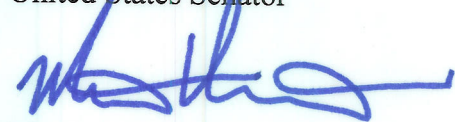

The Village would like to begin design of the project in anticipation of Phase I of construction. This phase would include a new I-25 interchange as well as an eastward extension to NM 314. The Village has coordinated with the Mid-Region Council of Governments to complete a corridor alignment study and has taken the initiative in acquiring the right-of-way to move this project forward.

The New Mexico Delegation proudly supports the current design project and future funding applications submitted by the Village of Los Lunas, and we ask that they be prioritized for funding.

Sincerely,

Tom Udall
